WELCOME ADDRESS

On behalf of the European Hip Society, it is our pleasure to invite you to the 9th Masterclass in Arthroplasty Surgery Thessaloniki, from 16th - 18th December 2022 with the topic: Advances in Arthroplasty - What's new in complex adult reconstruction & new technologies?

This year we will keep the competitive spirit enjoyed at last year's Ortho Olympics with the "Aristotle MAST Award 2022". The prize will be judged by a senior committee and presented by the Dean of the Aristotle University Medical School of Thessaloniki, who will name the most senior presenter of the winning team, Visiting Professor. In addition, we will also establish the "MAST "Endoxa" Consensus Report", hopefully leading to a multi-centre publication.

Our distinguished international colleagues will present their centre's best research data of the year and video surgery presentation throughout Friday and Saturday, while Sunday will be dedicated to our popular hands on workshops.

As always, our primary aim is to technically educate orthopaedic specialists to gain an invaluable insight into joint arthroplasty and revision from the world leaders.

Best regards,

Eleftherios Tsiridis

9TH MASTERCLASS IN ARTHROPLASTY SURGERY THESSALONIKI

Current concepts in

Advanced Arthroplasty Surgery

16-18 December 2022 Porto Palace Hotel **Thessaloniki**

General Information

MASTERCLASS DATES AND VENUE

December 16th – 18th, 2022

Porto Palace Hotel, Thessaloniki, Greece

(65, 26th Octovriou Avenue, T. +30 2310 504504, F. +30 2310 540384, E. info@portopalace.gr)

OFFICIAL LANGUAGE

English will be the official language of the Masterclass and no simultaneous translation will be provided.

E-PLATFORM FOR ONLINE ATTENDANCE

All online participating delegates will have an e-platform at their disposal, offering maximum interactivity which will facilitate participation to the congress as well as interaction with other delegates and exhibitors.

CONGRESS BADGE

It is mandatory for the delegates to show their congress badge at the entrance of the Congress halls in order to calculate their attendance time in all sessions. Delegates registered for on line participation will receive their e-badge and their log in details by e-mail.

CME ACCREDITATION

The 9th Masterclass has been granted 21 European CME credits (ECMECRs) by the European Accreditation Council for Continuing Medical Education (EACCME).

CERTIFICATE OF ATTENDANCE

According to the European Accreditation Council for Continuing Medical Education (EACCME), each medical specialist should claim only those credits that he/she actually spent in the educational activity. Certificates will be sent electronically after the end of the Masterclass.

EXHIBITION

There will be an exhibition of medical equipment and pharmaceutical products at the Congress Venue. There will also be a parallel e-exhibition at the e-platform for the online registration delegates.

PRESENTATIONS

Available visual equipment for all presentations will be through power point presentation. Presentations must be uploaded at the technical secretariat one hour prior to the presentation. The use of personal computers will not be feasible.

General Information

REGISTRATION

The congress will be held in hybrid form featuring in person physical attendance or online participation.

For online attendance, participants will receive their login details by e-mail before the congress starting date.

Registration Type	Cost
Specialists	220 €
Residents	100 € *
Physiotherapists	70 € *
Nurses	Free *
Undergraduate Students	Free *

Registration fees for in person physical attendance include:

- Admission to the scientific sessions
- Certificate of attendance
- Admission to the exhibition area

Registration fees for online attendance include:

- Admission to all sessions on the e-platform
- e-Certificate of attendance

**For final confirmation of your registration, proof of status must be submitted to the Congress Organizing Secretariat for the following categories: Residents, Physiotherapists, Nurses, Undergraduate Students
Above rates include VAT 24%*

Hands On Workshops	Cost

Persona®
THE PERSONALIZED KNEE

Maximum Coverage

● Asymmetric Tibia
● Symmetric Tibia

The shape of other tibias impose a choice between proper rotation and bone coverage. This leads to variability in rotational alignment. This is important, because several studies have shown a correlation between mal-rotation and anterior knee pain.¹⁻⁴

Mal-rotation of implants may lead to over **50% of painful TKA cases.**⁵

Anatomic shape of the Persona Tibia is designed to achieve proper rotation and optimal coverage, resulting in:

Statistically significant **decrease in anterior knee pain** *in vivo*⁷

92%
bone coverage⁶

Statistically significant **improvement** in medial plateau fit for Asian populations⁸

Lower incidence of downsizing⁶
